

HERE are three TRUTHS which are absolute, and which cannot be lost, but yet may remain silent for lack of speech :

THE SOUL OF MAN IS IMMORTAL, and its Future is the Future of a Thing Whose Growth and Splendor have no Limit.

THE PRINCIPLE which gives Life dwells in us, and without us, is undying and eternally beneficent, is not heard or seen or smelt, but is perceived by the Man who desires Perception.

EACH MAN IS HIS OWN ABSOLUTE LAW-GIVER, the Dispenser of Glory or Gloom to himself; the Decreeer of his Life, his Reward, his Punishment.

THESE TRUTHS, which are as great as is Life itself, are as simple as the simplest Mind of Man.
FEED THE HUNGRY WITH THEM.

[From The Idyll of the White Lotus]

"A Primer of Theosophy," issued by the American Section of the Theosophical Society as a propaganda book; 128 pages bound in cloth; price 15 cents, postage free to any point in the World's Postal Union. No profit is made on this book by any one who handles it. It is not issued for the sake of making a profit.

We earnestly desire to place this book, first, in all general public libraries that will promise to catalog it and place it where their readers can get it. Members and others interested are requested to purchase copies and give them to such libraries as will do this, notifying headquarters of their action. Secondly, we desire to place the book in all railway cars having libraries, all steamboats in the United States and all steamships in the world which will agree to place it in their libraries and care for it. Jails, penitentiaries, hospitals and all eleemosynary institutions of all kinds having libraries should be provided with one or more copies. Hotels and other public institutions having libraries we hope eventually to supply. We will send copies to all newspapers and other periodicals that will review the book.

The work defines Theosophy and explains its mission, presents a sketch of its chief doctrines, tells something of the higher planes of nature, gives a brief but exact account of the history and organization of the society, the methods by which it does its work and those by which one may join it. It lays down courses of study in Theosophy, recommending books for beginners as well as advanced students.

You are urged to aid us by sending money for the purpose of mailing the Primer to your friends and to enable us to send it to those who might become interested in Theosophy.

The Theosophical Society was founded at New York, November 17, 1875, and incorporated at Madras, April 3, 1908. Its founders believed that the best interests of Religion and Science would be promoted by the revival of Sanskrit, Pali, Zend, and other ancient literatures in which the Sages and Initiates had preserved for the use of mankind truths of the highest value respecting man and nature. A Society of an absolutely unsectarian and non-political character, whose work should be amicably prosecuted by the learned of all races, in a spirit of unselfish devotion to the research of truth, and with the purpose of disseminating it impartially, seemed likely to do much to check materialism and strengthen the waning religious spirit. The simplest expression of the object of the Society is the following:

First—To form a nucleus of the Universal Brotherhood of Humanity, without distinction of race, creed, sex, caste or color.

Second—To encourage the study of comparative religion, philosophy and science.

Third—To investigate unexplained laws of Nature and the powers latent in man.

No person's religious opinions are asked upon his joining, nor any interference with them permitted, but everyone is required, before admission, to promise to show towards his fellow-members the same tolerance in this respect as he claims for himself.

THEOSOPHY is the body of truths which form the basis of all religions, and which cannot be claimed as the exclusive possession of any. It offers a philosophy which renders life intelligible, and which demonstrates the justice and love which guide in its evolution. It puts death in its rightful place, as a recurring incident in an endless life, opening the gateway of a fuller and more radiant existence. It restores to the world the science of the spirit, teaching man to know the spirit as himself, and the mind and body as his servants. It illuminates the scriptures and doctrines of religions by unveiling their hidden meanings, and thus justifying them at the bar of intelligence, as they are ever justified in the eye of intuition.

Members of the Theosophical Society study these truths, and Theosophists endeavor to live them. Every one willing to study, to be tolerant, to aim high and work perseveringly is welcomed as a member, and it rests with the member to become a true Theosophist.

The headquarters, offices and managing

staff are at Adyar, a suburb of Madras, India.

Many branches of the Society have been formed in various parts of the world, and new ones are constantly being organized. Up to December 27, 1909, 1125 Charters for Branches have been issued. Each Branch frames its own by-laws and manages its own local business without interference from headquarters, provided only that the fundamental rules of the Society are not violated. Branches lying within certain territorial limits (as, for instance, America, England, India, etc.), have been grouped for purposes of administration into territorial Sections.

THIS YEAR'S SOUVENIR IS IN HONOR OF MR. A.P. SINNETT, THE WELL-KNOWN THEOSOPHIST, WHO HAS JUST RE-JOINED THE SOCIETY AS ITS VICE-PRESIDENT, AND OF THE PROMINENT HINDU JUDGE AND VICE-PRESIDENT, SIR S. SUBRAMANIAIYER, WHO VOLUNTARILY RETIRES TO MAKE PLACE FOR MR. SINNETT. THE SOUVENIR IS THE WORK OF MR. D. S. M. UNGER. AND IT WILL BE ILLUSTRATED.

The Propaganda Fund

As theosophists, we do not wish to be mercenary. And yet, in order to meet the demands of a rapidly growing work, we must have money. Voluntary subscriptions are necessary. We have many members who are able to subscribe towards the support of the Section, and who would be glad to assist if they realized how seriously funds are needed. There are so many splendid things that could be accomplished if we had more money at our command, and more members who could feel it a privilege to assist in the good work. We need more lecturers in the Field, and there are competent members ready to give their time and instruction if the sums could be provided to pay the necessary expenses of travel. The Section will gladly provide these Field workers if members are willing to make it possible by generous subscriptions.

I have been requested to take charge of the Propaganda Fund and soon will send a letter to the secretary of each lodge requesting his assistance in appointing a lodge member to solicit and transmit funds. In the meantime I shall be very glad to receive and care for contributions.

THE GOLDEN CHAIN

(A Morning Prayer for Children)

I am a link in the Golden Chain of Love that stretches around the world, and must keep my link bright and strong.

"So I will try to be kind and gentle to every living thing I meet and to protect and help all who are weaker than myself."

"And I will try to think pure and beautiful thoughts, to speak pure and beautiful words and to do pure and beautiful actions."

"May every link in the Golden Chain become bright and strong."
